It conceives and realizes projects and programmes relating to culture and the environment, while simultaneously meeting an important part of the Group's corporate responsibility commitments through its actions.

The Foundation's goal is an operational coupling and equiponderant promotion of culture and the environment via the action programme of its Museums in the Greek provinces, which constitute vibrant cultural entities. In order to create and run these seven -shortly to become nine- Museums, PIOP collaborates effectively with the Hellenic Ministry of Culture, local and regional authorities, the civic society, as well as with a broad network of specialists on environmental and cultural issues.

In this manner, the Foundation, and by extension the Piraeus Bank Group, contribute effectively and effectually to the country's cultural developments. [www.piop.gr](http://www.piop.gr)
